

1. The first step is to identify the problem. This involves understanding the nature of the problem, its scope, and its impact.

OVERHEARD AT THE AUTO SHOW

Not Deceived.

Becoming unmanageable from some unknown cause a small car turned the corner of Main street and Grand avenue, ran eastward and for some distance, then swerved suddenly and plunged over the steep side of the avenue. As the vehicle took the leap its driver jumped or was flung out but managed to catch on the broken railing. He hung for a horrid moment on the brink of death and then scrambled back to safety. "Merciful powers!" ejaculated a pedestrian below "What a narrow escape!" "Shucks!" returned the gent from Hopewell Junction who was on hand "that wasn't no escape; it was just a trick of some kind. They can't fool me!"

The New Peril.

The teacher had been telling her class about the rhinoceros family. "Now name some things," she said, "that are very dangerous to get too near to, and have horns." "Motor cars," promptly answered six children at once.

Must Have New Model.

"Are you going to economize by wearing your last year's clothes?" "I might," answered Mr. Chug-gins. "But don't go so far as to ask me to ride in my last year's automobile."

Smoke Up.

Why do you call your new cigar the Spark Plug?" "Perfect ignition."

Experienced.

Mrs. Flivah (whose car refuses to budge)—Do you know anything about a car?"

Mr. Strange—Not a thing!

Mrs. Flivah—Ah! you've never owned one.

Mr. Strange—I've had four!

That's Clear.

A tourist reports seeing the following police regulation posted up in Ireland:

"Until further notice every vehicle must carry a light when darkness begins. Darkness begins when the lights are lit."

Exactng Sport.

"Well, do you find golf all you expected?"

"All and more, sir," replied Mr. Dubwaite, who recently took up the game.

"Yes?"

"I used to think I had a pretty good flow of lurid language when I was changing an automobile tire or mending a puncture, but confronted by the necessities of golf, I'm as dumb as an oyster."

Some Car.

"How do you like your new car?" asked the Lizzie Driver.

"Great," replied the Big Six Driver. "It runs so smoothly you can't feel it. Not a bit of noise, you can't hear it. Perfect ignition, you can't smell a thing. And speed—why, it whizzes!—You can't see it."

"Must be some car," ventured the Lizzie Driver. "Can't feel it, can't smell it, can't hear it, can't see it. How do you know it is there?"

Sparks From the Auto Show.

What shall it be? queried mother of dad.

As they eyed two electric signs: A movie, an auto show; that's what they were.

But the folks couldn't make up their minds.

"Now listen," said mother, who dreamed of machines.

"The movie will always be there."

So dad said all right and on that very night.

They went to the auto affair.

Second Prize 97 Per Cent.

Why should people buy their merchandise in Kingston? In the first place, it will keep their city prosperous, which, of course, is a help to every citizen. Second, you can buy what you want here, as you see it. Then, you can get it cheaper here, because you do not have to endure the freight expense. Third, most Kingston merchants employ Kingston help and if you do not patronize them, they will have no work for anyone and then your own people will be out of employment. Last, as each city is a rival of another, we should buy in Kingston, thereby boosting Kingston.

Why is this the best time to show the co-operative spirit? First, during the World War the co-operative spirit was shown—that was how we won. Our merchants suffered during this period as the prices were raised beyond reason by the unnatural conditions. The time of readjustment is now here. Our merchants are feeling it. Why not help them? In helping them, we will be helping ourselves. We should show our confidence in the ability of our merchants by surmounting the many obstacles that arise, by co-operation. If our merchants cannot look to us, where can they look? Second, our city is growing industriously by the efforts of the Chamber of Commerce. To help the publicity of these organizations, our merchants have contributed large funds of money. We can show appreciation of their efforts by co-operation. Therefore I think we should buy our merchandise in Kingston and show the co-operative spirit now.

The Story of Our States

By JONATHAN BRACE XXII.—ALABAMA

THE discovery of Alabama is credited to De Soto in 1540. The English also laid claim to this territory and included it in the grant to North Carolina. But it was the French who first settled here erecting in 1702 Fort St. Louis on Mobile Bay and founding the town of Mobile nine years later. Mobile was for many years the capital of Louisiana. France in 1763 ceded the territory east of the Mississippi to England and the northern part of the present State of Alabama was joined to the Illinois territory. The southern portion was known as West Florida. Serious conflict with the Indians was kept up for many years. In fact, even as late as 1812, there was an uprising of the Creeks which resulted in terrible atrocities and massacres.

During the Revolution West Florida remained loyal to England, but was seized by Spain only to be turned over to the United States in 1813. This Mobile section was then added to the northern district and the State of Alabama was formed and became the twenty-second state of the Union in 1819.

The meaning of the name Alabama is variously interpreted. It was the name of an Indian tribe which inhabited this territory at the time of De Soto's first visit. After this tribe the river was named and the state was called Alabama after the river. The Indian word was supposed to mean "Here we rest," and these words are used on the state's coat of arms, but this interpretation is doubtful and its real meaning is uncertain. Alabama is sometimes called the Plantation State. Its area is 51,006 square miles. (By McClure Newspaper Syndicate.)

NESTLES BEGIN BUYING MILK

By Telegram to The Freeman.
New York, April 2.—Gradual resumption of milk manufacture for domestic and export trade is in immediate prospect for the Nestle's Food Company, according to a statement given out from headquarters here today.

Already orders have been issued for placing a number of plants in operation. These include the Nestle's Food Company's plants at New Berlin, Mt. Upton, Walton, Middletown, Oneonta, Unadilla, Ithaca and South Dayton, all in the state of New York, and others.

Other plants are being considered until one third of the total will be buying milk. It is understood that the selection of the plants to be opened will depend on the availability of fluid milk in their vicinity and the price at which it can be secured. The company has 60 plants throughout the country.

Arthur Wiseman Post, Ave. S. D., Rounds Out Its 100 Per Cent Membership.

To serve as commander of an American Legion post, which includes every eligible ex-service man in its district of 200 square miles, is the honor conferred on David L. Wickens of Arthur Wiseman Post, No. 130, Aron, S. D.

In rounding out its one hundred per cent membership, the post conducted a contest in which the losing side suffered the penalty of serving as kitchen police for a general feast. After the contest the ex-service men not yet enrolled were assigned to individuals until the last man in the territory was signed up.

Members of the post are scattered over a section 20 miles long and 10 miles wide. The post centralizes responsibility by providing that the post officers shall serve as members of the executive committee. It boasts of a first-class Women's auxiliary, an orchestra and basket ball team. Spice is added to the monthly meetings by a permanent entertainment committee which arranges for athletic contests, motion pictures or feasts to wind up the meetings.

50TH ANNIVERSARY AT PONCKHOCKIE

For more than sixty-five years the people of Ponckhockie have maintained a community Sunday school. At times its membership has been nearly three hundred. Fifty years ago the Newark Lime and Cement Company erected a beautiful chapel on Auburn street as the home of this community work. Through these years many faithful Christian people have labored in the religious education of nearly three generations and Sunday the Ponckhockie Union Church, which is the result of this work will celebrate the fiftieth anniversary of the dedication of the chapel. An invitation is extended to all who were ever connected with this Sunday school to return for this day especially the evening service, when the pastor, the Rev. F. W. Moot will speak on "Fond Reminiscences." At the close of the evening service a social hour will be held giving all an opportunity to renew old acquaintances. The following musical program will be rendered: Prelude, "Priests' March"; Mendelssohn Anthem "How Firm a Foundation"; Robertson Offertory "The Heavens Are Telling"; Haydn Postlude "God Be With You."

FAMILIAR STONE FOR BURROUGHS

A large boulder upon which John Burroughs played as a boy and sat in study of nature as a man and world-renowned naturalist, will form the headstone of the grave where his body is to be interred next Sunday on his eight-fourth birthday.

The burial plot selected Wednesday by relatives of the great naturalist who died suddenly Tuesday while returning to his home on a passenger train, is high in the Catskill Mountains at Roxbury. A landscape expert accompanied a funeral director there Wednesday to plan a little park around the grave.

A few feet from the burial ground stands the old house in which Mr. Burroughs was born. A little distance away is "Woodchuck Lodge," the summer camp of the naturalist.

His perennial playmates who enjoyed outings there—Thomas A. Edison, Henry Ford and Harvey S. Firestone—were expected to attend the funeral services today at the naturalist's home, Riverby, West Park, and to accompany the body to its final resting place.

Messages of condolence continue to reach the relatives, but they declined to make any of them public. Public services for the dead naturalist were conducted at Riverby this afternoon by the Rev. Franklin D. Elmer, formerly pastor of the First Baptist Church of Newburgh, now of the Collegiate Church at Hamilton, N. Y.

ESOPUS. Esopus, April 2.—Mr. and Mrs. John P. Ganong will not return to Esopus this summer, as Mr. Ganong has been offered, and accepted, a position in a store at Downsville, N. Y. They will be greatly missed in the church and community, and all hope for their return in the fall.

Mrs. Emma Hout of Oyster Bay will spend the summer with her daughter, Mrs. Percy Mott. At the close of the service last Sunday afternoon a meeting was held for the purpose of electing two trustees to take the place of Alfred Terpening and John L. Schultz, deceased. Leslie E. Mott and John H. Beaver were nominated and unanimously elected.

A communication received from Dr. George E. Wright, pastor of the Esopus Church, states that the regular preaching service will be held in the church next Sunday afternoon at 3 o'clock. Sunday school at 2. Epworth League devotional meeting at 7:30. Topic, "Thy Kingdom Come in My Church." The leader appointed is Roscoe Terwilliger, but illness prevents his being present and Harlowe McLean has kindly consented to take his place.

Percy M. Mott received another large consignment of Ford cars and trucks last week.

Dr. Wright delivered an exceedingly interesting Easter sermon last Sunday afternoon and at the close the following were received into full membership of the church: Mary Sheeley, Jennie Smith, Orman Her-

mance, S. E. Mott, Jr., and Ernest Best. Mr. and Mrs. Addison H. Tyler and daughter, Miss Irene, were received by letter from the Methodist Church, Marlborough. The sacrament of the Lord's Supper was also observed and the entire service was very impressive.

Mrs. Andrew Ewert spent the week end at the home of her daughter, Mrs. Arthur Salmon, of Brooklyn. Howard Thompson of West Esopus recently purchased a Maxwell touring car.

The Rev. George E. Wright is attending the New York Conference at Cornwall this week.

Quite a number from this village walked up the state road to view the wrecked Studebaker car Thursday forenoon.

WITTENBERG. Wittenberg, April 2. The M. E. Church Hall was filled to capacity on Wednesday evening to witness and greatly enjoy the play entitled, "Civil Service," as given by the Wittenberg Workers. The play itself was very clever, offering many opportunities for excellent acting, which were all duly met. Characters were as follows:

Old R. F. D., a mystery G. L. Decker. The Inspector, B. J. Cochran. The Postmaster, J. L. Reynolds. The Young Money Order Clerk, Siegel. Audaine. E. L. Short. The Mailing Clerk, Simpson Peary.

Floyd Stone. The Country Boy, Goldie Wex. The Postmaster's Daughter, Olivia. A Lady of Importance, Mrs. J. H. Jeffs. Mrs. Lewis Reynolds. A Hired Girl, Birdie Evans.

Mrs. E. Van Etten. A Collector, Miss Goldstein. Helen Short. The Plucky Little Stamp Clerk, Kate Kenyon. Mrs. E. L. Short.

The costumes were quaint, funny and line and that of Grand Decker's reminded one of the old R. F. D.'s of years ago. Taken altogether it was a most enjoyable entertainment and was followed by the serving of sandwiches, cake and coffee, the amount of sixty-six dollars being cleared.

The play will be repeated in the Fireman's Hall, Woodstock, in about ten days. Watch for particulars and all come and spend an enjoyable evening.

Kathryn and Kenneth Happy of Kingston spent their Easter vacation with relatives in this vicinity. Mr. and Mrs. L. J. Viehmann are spending an indefinite time with friends in Long Island City.

Mrs. E. S. Irish is entertaining relatives from Kingston. Mrs. Floyd Stone, who has been ill, is much improved at this writing. Mr. and Mrs. F. W. Bramer, also C. H. Morrison and father of New York, are spending an indefinite time at their summer home here.

Miss Dorothy Short is visiting her aunt, Mrs. Emory Happy, of Kingston. Mrs. A. P. Barclay has returned to her home in Newburgh after spending a few days with her parents, Mr. and Mrs. S. L. Short.

The Wittenberg Workers' meeting will be held at the home of Mrs. E. S. Irish on Wednesday, April 6, at 2 o'clock.

Miss Ruth Short has gone to Kingston where she has employment.

AT THE THEATRES.

Burlesque At Opera House—Moving Pictures At Others.

The classic and most pretentious burlesque show ever offered to the public is Peck & Jennings' "Jazz Babies" which will be the attraction at the Opera House tonight. It is a musical frolic in two acts and eight scenes and is a succession of mirth, melody and clean cut comedy that is bound to please.

In "Something to Think About," Cecil B. DeMille's sumptuous production by Jeanne MacPherson has woven a tremendous subject. Who shall come out of the force of life unscathed? Who shall come through the fires of suffering and the blows of the hammer of fate as strong and true as steel? Only to those who have come a vision of understanding. Tonight at Keeney's you will enjoy this marvel of the photoplay world as you have never enjoyed any entertainment heretofore. Monday William Russell in "Dare Knuckles" brings a virile tale of action from the snow country that is thrills from end to end.

At the Kingston Opera House for three days, starting Monday, Annette Kellerman in "What Every Woman Loves" is going to make photoplay history for Kingston. Every woman in the city will have about her for months to come. Don't miss her.

Mitchell Lewis in "Fool's Gold" is starring at the Auditorium tonight, also "Bride 13." Mousay Harry Carey in "If Only Jim."

LIBRARY SERVES MANY CHILDREN

If the coming to Kingston of Charles Hann Kennedy and his wife, Edith Wynne Mattheison, to give scenes from Romeo and Juliet and King Henry VIII at the High School Auditorium on April 12th, does nothing more than help to acquaint our people with the needs as well as the uses of the public of our City Library, it will all have been well worth while. A public library, if properly functioning and most efficient may be a character building influence in a community beyond estimate. But it must be both properly operated, as is ours—and efficiently equipped.

Most people realize the importance, and the difficulty of increasing the home life of the average family. The child must somehow be encouraged to spend more time at home and a greater sympathy and understanding developed between parents and children. But not many people appreciate that the public library is helping to solve this problem. When a child takes a book from the library it is certain that he will spend part of that day and probably the next in his home. He cannot read on the street and he is not likely to at the play ground. And if, as often happens the book interests the father and mother too, it is a bond of mutual sympathy and common interest. It tends to increase the home life.

Reading is to a child's mind what food is to its body. It cannot have a clean, alert, intelligent mind unless the proper mental food is given him. The children's books in the City Library are very carefully chosen. They are taken from lists made by experts who understand the book and the child. There is a wide variety so that each child can find what will interest and help him. He is given every encouragement to more and better reading.

But at present books are very expensive and it takes considerable money to keep a supply of clean, fresh, interesting books. The City Library loans for home use every month from one to two thousand volumes to the children. In January alone of this year it gave out 2,331 besides those to adult readers. This means that the juvenile books go out over and over again, and wear out so fast that they have to be replaced very often. It is not at all important that children should have the new, just published books, but it is important that they should have the old, tried favorites, and something that will awaken their imaginations, quicken their sympathies and strengthen their characters. The money from the Kennedy lecture will enable the City Library to buy more books for the children.

TRIBUTE TO WOOD.

Fellow Carrier's Verses Posted at Post Office.

Sergeant Henry Pieken, rural carrier on route No. 3 from the main Kingston post office, has posted on the bulletin board at the office a tribute in verse to Francis Wood, a carrier who was retired the other day, the first employee of the Kingston office to be retired, as follows:

You are the first to go, pal,
On what they call retired.
Your record will be us, pal,
Always be admired.

You are off the route, but often
In mind you will serve it still,
And in your dreams imagine,
"Fifteen clean out your till."

To those of us remaining,
A mark you've surely set,
But think while you are resting,
For us it's cold and wet.
No more you'll return "Misbox,"
Or ask for any "reds,"
For while you hear the "call outs,"
You'll be in leathery beds.

The subs no more can have you
To steal your one last strap,
And while the Christmas rush is on
You'll take a little nap.

Farewell, but not good bye, pal,
We wish you naught but joys,
So take these little verses
From all the postal boys.

Chicago Building Bombed.

By Telegram to The Freeman.
—Chicago, April 2.—More than thirty families fled into the street and many windows in the vicinity were smashed early today, when a four story building owned by Rosario Campanello, was bombed. Campanello told the police he had been threatened by extortionists because he had refused to heed their demand for \$1,500. The front wall of the building was shattered but no one was injured.

If you are interested in a monument attend to it at once. Decoration Day will soon be here. BYRNE BROS., Broadway and Henry street.—Advertisement.

BASKET BALL IN SHANDEGNON HALL

On Tuesday evening the Triangles of this city will play the Phenicia team at Shandegnon Hall in Allaben. The Triangles have defeated the Phenicia team once in the early part of the basketball season, but since then the mountain boys have improved a great deal. They have defeated some of the best teams in this section of the country and feel confident of giving the Triangles a good run for their money in the game Tuesday evening.

This game will be for the championship of the mountains, which the Phenicia team now holds. A large crowd of local basketball fans will make the trip to Allaben with the Triangles.

IT'S THEIRS SEE—

Weil, You Know Who to See Without Telling.

Harris Brown, proprietor of Brown's Vulcanizing Works at 662 Broadway, has one of the most interesting automobile tire exhibits at the Automobile Show at the armory. Mr. Brown, who started in as "a little fellow around the corner," has grown to be one of the biggest tire concerns along the river. Ten years ago he started in business on Downs street after spending five years in tire factories about the country getting experience and learning the tire business. The first store was a small one and later his business grew until he found it necessary to seek larger quarters. He then moved to 662 Broadway, where he now is located.

Although Mr. Brown is a jobber in tires still his business is virtually a retail one and most of his dealings are direct to the consumer.

Mr. Brown carries eight of the standard brands of tires and still handles the old reliable Diamond tire with which he started out in business.

Free tire service to automobile owners, free air, free delivery and free tire changes can be had at his shop. During the Automobile Show and the month of April, Brown is also giving a free tube with every tire sold.

NEWBURGH'S WATER SUPPLY

Sufficient for Twenty Years if Meters Are Installed.

That Washington Lake, with its present tributary watersheds, will be adequate to furnish Newburgh's water supply until 1940, provided meters are used, is the conclusion of James C. WOULD FERTILIZE THE AIR

Scientist Sees Immense Possibilities in Scheme Which He Claims Is Quite Feasible.

Recently men have undertaken to mine nitrates, or some of the material for nitrates, from the air. There is nitrogen enough in the air, no doubt, to blow civilization off the earth—were that nitrogen converted into explosives.

Now comes a hopeful German scientist named Kiesel, who believes that the air itself may be fertilized to such an extent that plants will be born forth from these seeds like tentacles. He would fill the air where plants are imbedded with carbon dioxide (carbonic acid gas). Plants love this gas as a fresh food and because it is always a good thing for the vegetable world, and because Kiesel promises to supply more.

He would get his supplies from the vital factories, where great times escape this gas. An industry which uses 4,000 tons of coke per day expels 35,000 tons of gas, of which about 20 per cent is carbon dioxide. Thus, for Kiesel has tried fertilizing the air in this way, and his large plants have flourished amazingly.
